SALMA MOHAMED

Data Analyst & Operations Specialist

Giza, Egypt (Remote) • +20 114 451 4595 • salmamohammed2465@gmail.com • C1 English Fluency • 55+ WPM Typing Speed

PROFESSIONAL SUMMARY

Analytical and detail-oriented Data Analyst with expertise in data cleaning, SQL querying, spreadsheet modeling, and dashboard creation. Proven track record in structuring raw datasets, maintaining database integrity, and delivering clear operational insights. Proficient across Python (Pandas/NumPy), SQL, Excel/Google Sheets, and Power BI. Known for strong technical accuracy, fast execution, and excellent written and verbal C1 English communication.

TECHNICAL TOOLCHAIN & SKILLS

Data Analysis & Visualization: SQL Querying (Joins, Aggregations, Subqueries), Power BI, Interactive Dashboards, Data Storytelling, Key Performance Indicator (KPI) Tracking.

Data Manipulation & Hygiene: Python (Pandas, NumPy), Advanced MS Excel & Google Sheets (XLOOKUP, VLOOKUP, INDEX/MATCH, Pivot Tables, Data Validation), Dataset Deduplication, Data Wrangling.

Operations & Workflow: Database Auditing, Standard Operating Procedures (SOPs), Automated Data Cleaning, Report Generation, Quality Control.

Languages & Core Strengths: C1 Advanced English, Arabic (Native), 55+ WPM Touch-Typing, High Attention to Detail, Problem Solving.

PROFESSIONAL EXPERIENCE

Data Analyst & Operations Specialist — Freelance / Independent Projects

Sep 2023 – Present

- Extract, clean, and transform structured and semi-structured datasets from CSVs, web sources, and relational databases using SQL, Python, and Excel.
- Develop automated spreadsheet solutions and lookup logic (XLOOKUP, FILTER, INDEX/MATCH) to streamline data intake and remove manual validation errors.
- Build clean, interactive reports and summary tables in Power BI and Excel to help business stakeholders track trends and operational metrics.
- Perform end-to-end data hygiene routines, including deduplication, handling missing values, and standardizing database schemas across large files.
- Communicate analytical findings clearly to clients through comprehensive documentation, written reports, and video updates.

Laboratory Chemist & Data Specialist — El Nasr Lab

Oct 2022 – Present

- Manage daily analytical logs and quantitative sample databases with strict zero-error data accuracy standards.
- Audit incoming scientific test datasets against historical baselines, identifying variances and ensuring complete regulatory compliance.
- Format and structure daily test metrics into management reports, standardizing reporting formats for internal teams.

KEY PROJECTS & ANALYTICAL ACHIEVEMENTS

- **Exploratory Data Analysis & Dashboarding:** Cleaned multi-variable relational databases using SQL and Python (Pandas), building dynamic Power BI dashboards for operational trend tracking.
- **Automated Data Cleaning Pipeline:** Developed Excel macros and complex lookup formulas to reduce dataset deduplication time by over 40%.

EDUCATION & CERTIFICATIONS

Postgraduate Professional Diploma in Biochemistry — Beni Suef University 2022 – 2023
Bachelor's Degree in Agriculture (Microbiology Major) — Ain Shams University 2018 – 2022
Professional Data Analysis Certification (SQL, Excel, Python, Power BI Data Visualization)
